A Guest Lecture on Opportunities and Challenges in IT –A Global Scenario
24.07.2018

The Department of Computer Science (Aided) organized a seminar on 24-07-2018. Mr.V.KANNAN ,Principal Database Administrator, Australian Energy Market operator(AEMO), AUSTRALIA delivered a guest lecture on "Opportunities and Challenges in IT –A Global Scenario". He discussed in detail some of the emerging trends in the IT field that include Grid Computing, Cloud Computing, Distributed Databases to quote a few and with the primary focus on the application of Automated Grid managed Electrical System that is in existence in Australia and shared his role of work to infuse the interests in the minds of students. He, further went on to deliberate the employment prospects abroad ,especially in Australia and motivated the students that they can do wonders if they are strong in fundamentals of their learning domains . In the Interactive Session, the students raised their doubts with regard to their study and the culture that prevails in Australia to which one needs to be ready.
