

# KONGUNADU ARTS AND SCIENCE COLLEGE

(AUTONOMOUS)

COIMBATORE-29.

## DEPARTMENT OF COMMERCE WITH INFORMATION TECHNOLOGY

<b>Name of the Programme</b>	<b>: Skill Enhancement Training</b>
<b>Topic</b>	<b>: Unlocking the Ledger: A Strategy Training Session on Blockchain Technology in Business</b>
<b>Resource Person</b>	<b>: Ms. Kajol Golchha, Workshop Trainer</b>
<b>Date</b>	<b>: 27-02-2026</b>
<b>Venue</b>	<b>: Smart Class room E-17</b>
<b>No. of Beneficiaries</b>	<b>: 50</b>

Department of Commerce with Information Technology, Kongunadu Arts and Science College (Autonomous) organized a training session on 27<sup>th</sup> February 2026 at Smart Class Room. The session was facilitated by Ms. Kajol Golchha, Workshop Trainer gave explanation about the fundamentals of block chain technology and its growing role in modern business environments. It covered how block chain works, including core concepts such as decentralization, distributed ledgers, consensus mechanisms and smart contracts. The session explored real-world applications across industries like finance, supply chain, healthcare, and digital identity, showing how organizations are leveraging block chain to improve transparency, security, and efficiency. Students engaged in case studies and practical examples to understand how block chain can be integrated into existing business models and how it can drive innovation and competitive advantage. Overall, the training was effective in enhancing participants' understanding of block chain technology and its practical applications in business. It successfully bridged the gap between theoretical concepts and real-world use cases, enabling attendees to grasp how block chain can drive transparency, efficiency, and innovation. The session also empowered participants to think strategically about adopting block chain solutions, evaluate potential opportunities and risks and apply their learning to improve decision-making.

### OUTCOME OF THE PROGRAM:

- Identify real-world business applications across industries through block chain Technology
- Analyse use cases like smart contracts, digital payments, and supply chain tracking.
- Develop strategic thinking for block chain adoption in business
- Gain practical knowledge of block chain tools and platforms
