Report in Detail:

The competitions for school students including Quiz, Drawing, Essay writing and Oratorical contests, were organized with the aim of promoting science education and fostering a competitive spirit among participants. The Quiz competition tested students knowledge of scientific facts and principles, encouraging active learning and quick thinking. The drawing competition stimulated creativity and artistic expression, allowing students to visually represent scientific concepts. The essay writing competition provided a platform for in-depth exploration of scientific topics, enhancing research and writing skills. The Oratorical competition focused on public speaking and persuasive communication of scientific ideas.

These competitions not only engaged students in science education but also developed critical thinking communication and creative skills, fostering a passion for scientific exploration and innovation. The events were successful in promoting a culture of academic excellence and competitive spirit among students.
