| Name of the Event           | <b>SPSS Tools: A Gateway to Data Science</b>                                                                    |
| Date                        | 10.09.2025                                                                                                      |
| Time                        | 2:30 PM                                                                                                         |
| Venue of the Programme      | C17                                                                                                             |
| Objectives of the Programme | To provide the fundamentals of SPSS tools essential for Data Science.                                           |
| Outcome of the Programme    | Participants understood the importance of SPSS and various tools available to perform statistical computations. |
| Number of Beneficiaries     | 40 students.                                                                                                    |

### **Report of the Programme**

The Department of Mathematics organized a session on the topic “SPSS Tools: A Gateway to Data Science” under DBT Star College Scheme on 10.09.2025.

Dr. M. Vigneshwaran, Assistant Professor of Mathematics, welcomed the gathering.

Dr. V. Kaviyarasu, Associate Professor of Statistics, Bharathiar University, Coimbatore served as the Resource person and discussed the fundamental concepts of Statistics and SPSS. He elaborated the functionalities of various tools required to perform statistical computations. He further briefed the process of handling and interpreting data using SPSS.

40 UG students of Mathematics Department attended this session and got benefited.

Dr. V. Kaviyarasu, discussing the concepts of SPSS
