Name of the Activity	Training on “Vermiculture, Apiculture and Aquaculture for Farmers”
Organizing Unit	Santhosh Farm, Pollachi & Integrated Organic Farm, Coimbatore

The Department of Zoology, Kongunadu Arts and Science College, Coimbatore, organized one day State Level Workshop on “Vermiculture, Apiculture and Aquaculture for Human Welfare’ sponsored by Indian Science Congress Association (ISCA), Coimbatore Chapter on 13.09.2017. One hundred and twenty participants which includes students, research scholars and faculty members from various universities and colleges and farmers from various regions of the Tamil Nadu have received practical experience and got benefited.

Details of the lectures

S.No.	Resource person	Topic
1.	Er. Madhu Ramakrishnan Santhosh Farm, Kotturmalayanttipatinam, Pollachi	Organic Farming
2.	Mr.Krishnamoorthy, Integrated Organic Farm, Kanuvai, Coimbatore	Biointegrated farming
3.	Dr.P.Kathireswari, Assistant Professor, Dept. of Zoology, Kongunadu Arts Science College, Coimbatore	Vermiculture
4.	Dr.K.Vijayakumar, Assistant Professor, Dept. of Zoology, Kongunadu Arts Science College, Coimbatore	Apiculture
5.	Dr.F.Jerald Felix, Assistant Professor, Dept. of Zoology, Kongunadu Arts Science College, Coimbatore	Aquaculture

Inaugural address by Dr. V. Balasubramaniam, Principal i/c, Kongunadu Arts and Science College, Coimbatore

Honouring the chief guest

Special lecture by ER. Madhu Ramakrishnan, Santhosh Organic farm, Kotturmalayantipatinam, Pollachi

Special lecture by Mr. Krishnamoorthi, Integrated organic farm, Kanuvai, Coimbatore

Special lecture by Dr. P. Kathireswari, Assistant Professor of Zoology, Kongunadu Arts and Science College, Coimbatore

Special lecture by Dr. K. Vijayakumar, Assistant Professor, Department of Zoology Kongunadu 004 IrtS and Science College Coimbatore

Special lecture by Dr. Jerald Felix, Assistant Professor,
Department of Zoology, Kongunadu Arts and Science
College, Coimbatore

Name of the Activity	Training for farmers on ‘Farming practices with environmental security’
Organizing Unit	Indian Science Congress Association, Coimbatore Chapter

The Department of Botany, Kongunadu Arts and Science College (KASC), Coimbatore organized an One day workshop on ‘Farming Practices with Environmental Security’ which was held at Navaneetha Krishnan Farms, Mettupalayam, Coimbatore on 21.02.2018. Indian Science Congress Association (ISCA), Coimbatore Chapter sponsored the programme.

In the inaugural session, Dr. S. Jamuna, Organizing Secretary of the workshop and Assistant Professor of Botany, KASC welcomed the gathering and highlighting the importance of farming in India. **Mr. T. Navaneetha Krishnan, Agriculture and Information Systems, Poothottam, Mettupalayam, Coimbatore** delivered the special lecture on “**Farming practices with environmental security**” and gave hands-on training on the preparation of ‘**Organic biofertilizers**’ for the farmers. In his lecture, he told that the basic principles and importance of organic farming practices and their alternative names like zero budget farming, ecofriendly farming, biodynamic farming, do nothing farming, sustainable farming, etc. He pointed out that the farmers should have the knowledge about the agricultural pest control, water management, environmental forces, economical forces and value added products by ecologically sound organic farming. He also emphasized need of usage of day calendar for better crop production and demonstrated the preparation of organic fertilizers like CPP (Cow Pat Pit), CPP500 to CPP508 to the farmers.

Later, **Mr. K. Krishnamoorthy** of Pannimadai village who is practicing organic farming since a decade in his 10 acres land for paddy cultivation shared his experience in natural farming adoptions.

About 40 farmers and 4 students were attended the meeting and deliberations of the workshop are most useful for farmers. The meeting was concluded at 4.30pm with the vote of thanks proposed by the Dr. K. Karthika, the another Organising Secretary of the programme and Assistant Professor of Botany, KASC.

Dr. S. Jamuna, Assistant Professor of Botany, KASC welcomed the gathering

Name of the Activity	Orphanage visit
Organizing Unit	Business Administration CA

Department of BBA- CA Students of Kongunadu Arts and Science College has contributed their time and money to the Orphanage which is in Kavundampalayam, on 15/08/2017.

The students was Well - Organized and donated things which they needed i.e, Dhal, Oil, Washing Soaps, Powder, Toothpaste, Soap to the mentally disordered persons in the Orphanage.

The person who is running and taking care of the disordered people's, thank everyone for their kind hearts in this small age and he felt proud of our students.

By the way students took a pledge there as “Hereafter we all will help them how much we can and monthly once we all will make the orphan people happy, by providing what they want, and we are ready to spend our time with them.

Department staffs Organized well and helped the students.

Name of the Activity	Training Programme of Preventing Fish Diseases and their Management
Organizing Unit	PG and Research Department of Zoology

One day workshop on “**Training Programme of Preventing Fish Diseases and their Management**” was given to the fish farmers in **Kannan Fisheries Farm** at **Palakkad** on **14.10.2017**.

Dr.S.Binukumari organizing Secretary of this programme from the Department of Zoology, Kongunadu Arts and Science college, Coimbatore-29 visited this Kannan fisheries farm at Palakkad. During this training programme, many farmers from that area participated and gained many practical knowledge with regard to different kinds of fish diseases and fish health monitoring.

Intensively cultured fishes are naturally susceptible to bacterial, fungal and parasitic infections, particularly at times of stress. Many problems can be avoided by appropriately quarantining new stock before release into culture tanks or ponds, maintaining water quality and a stress free environment and regular disease monitoring of stock. In the event of disease outbreak, stock can sometimes be effectively treated by salt or freshwater baths or via veterinarian prescribed treatments. There are some fish diseases and infections that can be transmitted from fish and the water in which they are cultured to humans. Although the infection of humans with fish pathogens is a relatively unusual event, it is a health risk that needs to be recognized by fish farmers and other people who handled the fish farm.

Managing a disease outbreak

1. Isolate any animals showing signs of disease or infection in separate ponds and tanks.
2. Quarantining all equipment from other ponds and tanks
3. Prevent birds, animals, vehicles and human from spreading disease through the farm
4. Tend to healthy animals each day before you have any contact with sick ones.
5. Collect specimens of affected aquatic animals for laboratory examination
6. Safely dispose of diseased and dead animals and effluent water.

The goal of the programme was making fish farmers to understand the incidence of transmission of disease from fish to humans is dependent upon several factors including the type of organism (Viral, Parasitic or Bacterial) of the host (immuno – compromised individuals, presence of open wounds) and environmental factors (quality of water, depth of penetration of fish spines). Optimum farm design, appropriate husbandry and handling and water quality management will reduce the risk of disease transfer from fish and their environs to workers in the aquaculture industry. Mainly fish farmers participated in the program and benefited.

SPREADING GREEN MISSION ON 21.02.2018

To protect the environment and making it pollution free by planting tree saplings is the motto of this mission. Our Youth Red Cross comrades went to subramaniyam palayam elementary school to plant the saplings. Our team has dogged 10 pits for planting the saplings. At the time we cleaned the campus and gave awareness to the students studying in the school on green environment. Our team accompanied by our YRC staff-in-charge went there to plant the saplings.

CLOTH COLLECTION FOR ORPHANAGES ON 24.07.2017 to 27.07.2017

Youth Red Cross (YRC) has been functioning with the motto of raising awareness among college students on blood donation and organ donation. Helping the poor and needy, especially children, by donating blood, clothes, notebooks, and other useful things to them. As an initiative to that our Youth Red Cross comrades collected clothes from all the classes and departments with the great support of students and staff members. We had placed separate boxes for collecting clothes like Men, Women and Kids. Our comrades took care of them from morning till evening. Now we have planned to donate the clothes to various orphanages and we have also planned to spend time with the kids living there as we expect it will them happy.
