

KONGUNADU ARTS AND SCIENCE COLLEGE (AUTONOMOUS)

Re-accredited by NAAC with 'A+' Grade (4th Cycle)

College of Excellence (UGC)

31st Rank among colleges in NIRF 2022, Affiliated to Bharathiar University

Coimbatore – 641 029.

DEPARTMENT OF ZOOLOGY (Aided)

COURSE OUTCOMES (CO) OF

B.Sc. ZOOLOGY

For the students admitted

In the Academic Year 2021-2022

Programme code:06	B.Sc., Zoology			
Course code: 21UZO101	Core Paper 1 –Invertebrata			
Batch 2021-2022	Semester 1	Hour/Week 7	Total hours 105	Credit 5

Course Objectives

1. To obtain the knowledge of taxonomy and general characteristics of invertebrata
2. To understand the morphological and anatomical features of selected invertebrata
3. To create awareness about the harmful parasites and the economic importance of invertebrata

Course Outcomes

K1 - K5	CO1	Identify the systematic position of various organisms in the phylum invertebrata
	CO2	Understand the structure and its function of the invertebrata
	CO3	Apply the knowledge to study the important parasites and their control measures
	CO4	Analyze the economic importance of invertebrate organisms
	CO5	Evaluate the impact of beneficial and harmful invertebrate animal on human health and other animal health

Programme Code -06	B.Sc Zoology			
Course code 21UZO1I1	Allied A Paper -I Sericulture -I			
Batch 2021-2022	Semester 1	Hour/Week 5	Total hours 75	Credit 4

Course Objectives

1. To create a self-employment opportunity among students
2. To equip the skills of rearing of silkworms
3. To create better breeding and Grainage techniques of silkworms

Course Outcomes

K1 - K5	CO1	Get the knowledge about the mulberry and non-mulberry silkworms.
	CO2	Understand the various silkworm rearing techniques
	CO3	Apply knowledge on control measures of silkworm diseases
	CO4	Analyze silkworm breeding and various breeding techniques of silkworm
	CO5	Evaluate the various techniques of grainage operations of silkworms

Title: For B.A., BBA, B.Com, BCA and B.Sc., Degree Students				
PART IV – ENVIRONMENTAL STUDIES				
Batch 2021-2022 21EVS101	Semester I	Hours / Week 2	Total Hours 30	Credits 2

Course Objectives

- The course will provide students with an understanding and appreciation of the complex interactions of man, health and the environment. It will expose students to the multi-disciplinary nature of environmental health sciences
- To inculcate knowledge and create awareness about ecological and environmental concepts, issues and solutions to environmental problems.
- To shape students into good “Ecocitizens” thereby catering to global environmental needs.
- This course is designed to study about the types of pollutants including gases, chemicals petroleum, noise, light, global warming and radiation as well as pollutant flow and recycling and principles of environmental pollution such as air, water and soil
- The course will address environmental stress and pollution, their sources in natural and workplace environments, their modes of transport and transformation, their ecological and public health effects, and existing methods for environmental disease prevention and remediation.

Course Outcomes

On successful completion of the course, the students will be able to

	K1	CO 1	Understand how interactions between organisms and their environments drive the dynamics of individuals, populations, communities and ecosystems
		CO2	Develop an in depth knowledge on the interdisciplinary relationship of cultural, ethical and social aspects of global environmental issues
		CO3	Acquiring values and attitudes towards complex environmental socio-economic challenges and providing participatory role in solving current environmental problems and preventing the future ones
		CO4	To gain inherent knowledge on basic concepts of biodiversity in an ecological context and about the current threats of biodiversity
	K5	CO5	To appraise the major concepts and terminology in the field of environmental pollutants, its interconnections and direct damage to the wildlife, in addition to human communities and ecosystems

Programme Code:06	B.Sc., Zoology			
Course code: 21UZO202	Core Paper- 2- Chordata			
Batch 2021-2022	Semester II	Hour/Week 7	Total hours 105	Credit 5

Course Objectives

1. To obtain the comprehensive knowledge on the taxonomy and characteristics of chordates
2. To understand the morphological and anatomical features of chordates
3. To acquire knowledge on the general features, distribution and economic importance of chordates

Course Outcomes

K1 -K5	CO1	Identify the systematic position of the various group of animals in Phylum Chordata
	CO2	Understand the morphology and anatomy of animals in different class of Chordates
	CO3	Apply the knowledge on the learned systematic position of various animals to study the evolutionary significance of animals.
	CO4	Analyze the different morphological and anatomical features development gradually from one class to another class on the adaptation of animals to various habitats.
	CO5	Evaluate the impact of evolved characteristics for the adaptation of different classes of animals to their habit and habitat.

Programme code -06	B.Sc., Zoology			
Course code 21UZO212	Allied A Paper 2. Sericulture-II			
Batch 2021-2022	Semester II	Hour/Week 5	Total hours 75	Credit 4

Course Objective

1. To study the mulberry cultivation and rearing of silkworm
2. To develop skills about the quality and processing of silk
3. To know the importance of reeling and byproducts of reeling for industrial development

Course Outcomes

K1 - K5	CO1	Get the knowledge about the Moriculture
	CO2	Understand the cultivation of mulberry plants, pests, diseases and control measures of mulberry
	CO3	Apply knowledge on processing of cocoons and different methods of silk reeling
	CO4	Analyze the importance of sericulture in entrepreneurship development.
	CO5	Evaluate the importance of marketing of cocoons and raw silk Examination

Programme code:06	B.Sc., Zoology			
Course code: 21UZO2CL	Core Practical-I-Invertebrata and Chordata			
Batch 2021-2022	Semester I&II	Hour/Week 2	Total hours 60	Credit 2

Course Objectives

1. To observe various non-chordate specimens by using Microscope
2. To know the various systems (Digestive system, circulatory system and Reproductive system) of frog or rat by using virtual laboratory
3. To analyze the quality of excretory product of certain vertebrate

Course Outcomes

K2 – K5	CO1	Get the knowledge on the cellular organization of animal kingdom
	CO2	Understand the knowledge to study various anatomical system by using virtual laboratory
	CO3	Apply the knowledge on phylogenetic classification of animal kingdom
	CO4	Analyze the excretory products of certain vertebrates
	CO5	Evaluate the biological significance, structure, and functions of various animals.

Programme code- 06	B.Sc., Zoology			
Course code: 21UZO21L	Allied A Practical 1. Sericulture			
Batch 2021-2022	Semester I&II	Hour/Week 2	Total hours 60	Credit 2

Course Objectives

1. To inculcate the practical knowledge on moriculture and sericulture, mulberry propagation, pests and diseases and their control measures
2. To know the importance of silkworm rearing, pests and diseases of silkworms and their control measures.
3. To analyze the quality of silk through different experiments

Course Outcomes

K2 – K5	CO1	Apply knowledge on moriculture and sericulture
	CO2	Observe the biology, rearing, pests and diseases of silkworm and their control measures
	CO3	Evaluate the quality of silk
	CO4	Train to become an Entrepreneur
	CO5	Evaluate the importance of cocoons, eggs and silk gland

Programme Code: 01	All UG First years		
Course Code: 21VED201	MORAL AND ETHICS		
Batch	Hours / Week	Total Hours	Credits
2021-2022	2	30	

Course Objectives

1. To impart Value Education in every walk of life.
2. To help the students to reach excellence and reap success.
3. To impart the right attitude by practicing self introspection.
4. To portray the life and messages of Great Leaders.
5. To insist the need for universal brotherhood, patience and tolerance.
6. To help the students to keep them fit.
7. To educate the importance of Yoga and Meditation.

Course Outcomes (CO)

After completing the course the students:

K1 - K5	CO1	will be able to recognize Moral values, Ethics, contribution of leaders, Yoga and its practice
	CO2	will be able to differentiate and relate the day to day applications of Yoga and Ethics in real life situations
	CO3	can emulate the principled life of great warriors and take it forward as a message to self and the society
	CO4	will be able to Analyse the Practical outcome of practicing Moral values in real life situation
	CO5	could Evaluate and Rank the outcome of the pragmatic approach to further develop the skills

Programme Code- 06		B.Sc. Zoology		
Course Code: 21UZO303		Core Paper 3 – Cell and Molecular biology		
Batch 2021-2022	Semester III	Hours / Week 5	Total Hours 75	Credits 5

Course Objectives

1. To provide the fundamental knowledge on microscopy, staining techniques, cell types and characters.
2. To enrich the knowledge on cell organelles and their role in metabolic activities.
3. To acquire knowledge about cell division and genetic makeup of the cell and its significance.

Course Outcomes

K1 - K5	CO1	Remembering knowledge on the working principles of microscopes, staining techniques and different types of cells.
	CO2	Understanding the concept of the structure and functions of various cell organelles.
	CO3	Apply the knowledge gained to understand the metabolic machinery of cells
	CO4	Analyze the role of various factors on structural formation of chromosome, cell cycle and cell division.
	CO5	Evaluate the impact of cells and its organelles in the synthesis of DNA as genetic material, protein synthesis and the effect of various factors in cancer cell formation.

Programme Code- 01		B.Sc. Zoology		
Course Code: 21UGA3S1		SBS I – GENERAL AWARENESS		
Batch 2021-2022	Semester III	Hours / Week 2	Total Hours 30	Credits 3

Course Objectives

1. To acquire knowledge in relation to various competitive examinations.
2. To encourage the students to newspaper reading and journals.
3. To familiarize the students with online examinations which are being adopted in competitive examinations.

Course Outcomes (CO)

K1	CO1	Knowledge about literature, Reasoning, Science and Technology and Youth Red Cross.
-	CO2	Remembering important data on general knowledge
K5	CO3	Make use of the data for competitive examinations
	CO4	Analyse social phenomena
	CO5	Comprehend a glimpse and overview of civil service exams.

Programme Code : 06		B.Sc., Zoology		
Course Code 21UZO404		Core Paper 4 –Physiology		
Batch 2021-2022	Semester IV	Hours / Week 5	Total Hours 75	Credits 5

Course Objectives

1. To get knowledge about the nutrition and feeding mechanism
2. To understand the structure and functions of various organ systems in the animal
3. To distinguish the interrelationship within physiological systems

Course Outcomes

K1 – K5	CO1	Remember and recognize the physiological structure and functions of various organs
	CO2	Understand the anatomical knowledge in predicting the physiological consequences
	CO3	Apply the physiological activity of organ system
	CO4	Analyse the types and functions of endocrine glands
	CO5	Evaluate the properties and functions of physiological systems

Programme Code :06		B.Sc., Zoology		
Course Code 21UZO4S2		Skill Based Subject 2- Health Education		
Batch	Semester	Hours / Week	Total Hours	Credits
2021-2022	IV	2	30	3

Course Objectives

1. To inculcate knowledge on health education and life styles.
2. To create awareness about the importance of the environment for healthy life.
3. To educate students in relation to health education programmes of public importance.

Course Outcomes

K1– K5	CO1	Remember the knowledge about the concept of health
	CO2	Understand the role of Nutrition in Man
	CO3	Apply the knowledge on various environmental pollution and diseases and their impacts on Man
	CO4	Analyse the Prevention and control of communicable and non-communicable diseases.
	CO5	Evaluate the Basic Knowledge of health care schemes

Programme Code : 06		B.Sc., Zoology		
Course Code 21UZO4CM		Core Practical II – Cell and Molecular Biology and Physiology		
Batch 2021-2022	Semester IV	Hours / Week 2	Total Hours 60	Credits 2

Course Objectives

1. To impart practical knowledge on different types of blood cells.
2. To understand mitotic and meiotic division of cells.
3. To learn the physiological process of oxygen consumption, osmoregulation and enzyme activity.

Course Outcomes (CO)

K2 – K5	CO1	Get the knowledge on the techniques and staining process for identification of different types of cells.
	CO2	Understand the process of mitotic and meiotic cell division.
	CO3	Apply the gained knowledge to study the haemin crystal formation and classification of blood groups.
	CO4	Analyze the physiological process such as oxygen consumption, osmoregulation and enzyme activity.
	CO5	Illustrate the different types of blood cells, physiological processes in our body and its impact on our health.

Programme Code : 06	B.Sc., Zoology			
Course code 21UZO505	Core Paper - 5- Genetics			
Batch 2021-2022	Semester V	Hour/Week 5	Total hours 75	Credit 4

Course Objectives

1. To make the students develop a comprehensive knowledge on pioneers in genetics and their contributions.
2. To create knowledge about the application of genetic principles in different populations.
3. To make the students understand the various principles of heredity and apply the genetic principles in mutation and genetic disorders.

Course Outcomes

K1 – K5	CO1	Remembering the Mendelian principles of dominance and co- dominance.
	CO2	Understand the genetic linkage, crossing over and sex- linked inheritance in animals
	CO3	Apply the modern concept of gene, mutation and chromosomal aberrations.
	CO4	Analyse the deep knowledge on genetic disorders in man.
	CO5	Evaluate the need of breeding, genetic counseling and its significance.

Programme Code : 06	B.Sc. Zoology			
Course code 21UZO506	Core Paper - 6- Evolution			
Batch 2021-2022	Semester V	Hour/Week 5	Total hours 75	Credit 4

Course Objectives

1. To learn the evolution of different group of animals
2. To Understand the theories of evolution
3. To acquire knowledge on origin of species

Course Outcomes

K1 - K5	CO1	Understand the theory and concept of evolution
	CO2	Outline the origin of life, zoological time scale and living fossils
	CO3	Explain the evolutionary theory to understand the evolution of animals
	CO4	Analyze the significance of geological time scale and adaptation on the evolution of animals
	CO5	Describe the evidences proposed for the evolution of horse, elephant and man

Programme Code : 06	B.Sc, Zoology			
Course code 21UZO507	Core Paper - 7 – Ecology			
Batch	Semester	Hour/Week	Total hours	Credit
2021-2022	V	5	75	4

Course Objectives

1. To know the fundamental principles that govern the functioning of the environment.
2. To understand the concept of ecosystem and balance of nature.
3. To assess the relationship between environment and organisms.

Course Outcomes

K1 - K5	CO1	Remembering the knowledge about the ecological studies and their significance
	CO2	Understand the interlink between living and nonliving resources for an ecosystem management
	CO3	Apply knowledge on Community and Habitat ecology at different geographical regions to enhance species specific management
	CO4	Analyze the ecological significance and their management
	CO5	Evaluate the student's knowledge the ecosystem approach

Programme Code:06		B.Sc., Zoology		
Course Code 21UZO508		Core Paper- 8 – Biostatistics and Bioinformatics		
Batch 2021-2022	Semester V	Hours / Week 5	Total Hours 75	Credits 4

Course Objectives

1. To provide the fundamental knowledge on Biostatistics and Bioinformatics in biology.
2. To enhance the knowledge on importance of statistics and Bioinformatics tools in the analysis of Biological data at significance level.
3. To learn the biological databases and apply biostatistics and bioinformatics tools to analyse the structure of the molecules and drug discovery.

Course Outcomes

K1 – K5	CO1	Classify the data collection methods and primary and secondary data analysis
	CO2	Understand the significance of biostatistics in biological sciences and also applied in research work.
	CO3	Apply fundamental knowledge of Biostatistics and bioinformatics tools to Analyse of Biological data generated by research
	CO4	Outline the role of Biostatistics and bioinformatics tools in biological data interpretation.
	CO5	Analyse the application of Biostatistics and Bioinformatics tools on structure prediction of molecules and drug discovery

Programme Code: 06		B.Sc., Zoology		
Course Code 21UZO609		Core Paper 9 – Microbiology and Immunology		
Batch	Semester	Hours / Week	Total Hours	Credits
2021-2022	VI	4	60	4

Course Objectives

1. To update basic knowledge on microorganisms.
2. To understand the economic importance of microbes in relation to agriculture, industry and medicine.
3. To analyze and inculcate knowledge about the immune system and immunological responses to antigens.

Course Outcomes

K1 - K5	CO1	Remembering the structure of different microorganisms, various culture media and microbial techniques.
	CO2	Understand the architecture and replication strategies adapted by the microorganisms.
	CO3	Apply the pathogenic and non-pathogenic microorganisms and to study the mechanism by which they cause diseases in humans.
	CO4	Analyze the role of the immune system and types of immunity produced against the pathogens.
	CO5	Illustrate the rate of infection, antigen and antibody reactions, immunization and its importance.

Programme Code : 06		B.Sc., Zoology		
Course Code 21UZO610		Core Paper 10 – Biotechnology		
Batch 2021-2022	Semester VI	Hours / Week 5	Total Hours 75	Credits 5

Course Objectives

1. To Learn the theoretical basis of techniques in Genetic Engineering
2. To understand the methods adapted for the industrial production of recombinant products
3. To learn the biosafety and bioethics to understand the social and scientific issues in Biotechnology

Course Outcomes

K1 – K5	CO1	Explain the Basic concepts and tools of Genetic Engineering
	CO2	Discuss the techniques of cloning
	CO3	Apply the knowledge of Gene transfer techniques in cloning and industrial recombinant product production
	CO4	Analyse the impact of applied techniques on the cloning and production of recombinant products
	CO5	Illustrate the impact of Biotechnology on human health and Environment

Programme Code : 06		B.Sc. Zoology		
Course Code 21UZO611		Core Paper- 11 – Developmental Biology		
Batch 2021-2022	Semester VI	Hours / Week 5	Total Hours 75	Credits 5

Course Objectives

1. To get knowledge about theories of development and gametogenesis.
2. To study the process of fertilization and cleavage of animals.
3. To understand the embryonic developmental stages and extra embryonic nutrition of animals.

Course Outcomes (CO)

K1 - K5	CO1	Remember the laws and theories of development and gametogenesis.
	CO2	Understand the process and different methods of fertilization.
	CO3	Apply the knowledge on various developmental stages of animals.
	CO4	Analyze the importance organogenesis and process of embryonic nutrition.
	CO5	Evaluate the theories, principles and techniques of embryology and its applications in assisted reproductive technology.

Programme Code : 06		B.Sc, Zoology		
Course Code 21UZO612		Core Paper 12 – Biodiversity and Animal behaviour		
Batch 2021-2022	Semester VI	Hours / Week 4	Total Hours 60	Credits 4

Course Objectives

1. To understand the present status of Fauna.
2. To create awareness on conservation of endangered species.
3. To understand the comparison of ancient and recent information about biodiversity.

Course Outcome

K1 K5	CO1	Outline the distribution pattern of animals
	CO2	Understand the ancient and recent information about biodiversity
	CO3	Apply about people's participation in biodiversity conservation and sustainable development.
	CO4	Analyse about various ecosystem and its biodiversity
	CO5	Evaluate the animal behaviour and biodiversity Acts for environment preservation.

Programme Code :06	B.Sc., Zoology			
Course code 21UZO6CN	Core Practical 3. Ecology, Developmental Biology and Animal Diversity			
Batch	Semester	Hour/Week	Total hours	Credit
2021 -2022	VI	2	60	2

Course Objectives:

1. To inculcate the students to learn the water quality and planktons
2. To demonstrate the developmental stages of chick
3. To create awareness about the rearing of silkworm and Earthworm

Course Outcomes

K2 – K5	CO1	Get the practical knowledge about the species identification, diversity and their ecological significance
	CO2	Understand about the species diversity and water pollution due to anthropogenic activity
	CO3	Apply practical knowledge on plankton analysis, sericulture, vermiculture, and pest management.
	CO4	Analyze about practical and filed knowledge in relation to environment management
	CO5	Evaluate the various Developmental stages of Chick and Frog

Programme Code : 06		B.Sc., Zoology		
Course Code 21UZO6CO		Core practical 4. Evolution, Genetics, Microbiology and Immunology and Biotechnology		
Batch 2021-2022	Semester VI	Hours / Week 2	Total Hours 60	Credits 2

Course Objectives

1. To learn the basic microbial culture and Genetic engineering tools
2. To Understand evolutionary concept of the animal kingdom
3. To analyse the impact of microorganism on quality of food

Course Outcomes

K2 – K5	CO1	Get the Knowledge on the tools and techniques used in Microbial culture and isolation of DNA and immunotechniques
	CO2	Understand the different culture media for various organism and the evolutionary significance of animal kingdom
	CO3	Apply the techniques to separate the DNA and Protein molecules and immunotechniques to study the antigen antibody interaction
	CO4	Compare and analyze quality of milk and other products qualitatively and antigen antibody interaction to identify the impact of diseases
	CO5	Evaluate the values of Immunotechniques, Biotechnological products and the significance of evolution to study the social and healthy human and animal life.

Programme Code :06	B.Sc, Zoology			
Course code 21UZO6Z1	Project Work and Viva - Voce			
Batch	Semester	Hour/Week	Total hours	Credit
2021-2022	VI	3	45	5

Course Objectives

1. To acquire the basic knowledge about research and carry out research problems in the field of zoology.
2. To explore the ability to plan, carryout innovation in project
3. To improve the knowledge on various research methods in zoology

Course Outcomes

K2 – K5	CO1	Get the foundational practical knowledge to carry out research in the specified area.
	CO2	Understand the techniques to be used to carryout the specific research work.
	CO3	Apply the learned techniques to carryout the experiments and obtain the result.
	CO4	Analyse the result by using biostatistical tools and interpret the result.
	CO5	Evaluate the analysed result and conclude the study and highlight its significant outcome

Programme Code: 06	B.Sc. Zoology		
	Major Elective 1 - WildLife Ecology and Management		
Batch 2021-2022	Hours / Week 4	Total Hours 60	Credits 3

Course Objectives

1. To understand and appreciate biodiversity and the Act to protect the wild species.
2. To learn different techniques to study wildlife and develop knowledge of the benefits of ecosystem.
3. To get knowledge about various methods to conserve biodiversity.

Course Outcomes

K1 - K5	CO1	Remember the various components of an ecosystem
	CO2	Understand the wildlife management in India and National Parks and Sanctuaries.
	CO3	Apply the Biodiversity hot spots, Endangered species and their Protection
	CO4	Analyse the Wild life management Techniques and animal plant interaction.
	CO5	Evaluate the students to sampling techniques in various fields

Programme Code: 06	B.Sc., Zoology		
	Major Elective Paper 2 –Poultry Science and Management		
Batch	Hour/Week	Total hours	Credit
2021-22	4	60	3

Course Objectives

1. To develop knowledge on the history and the role of poultry in rural development and its structure.
2. To learn the methods of rearing, breeding and production of poultry.
3. To get the knowledge about the preparation of feed, antibiotics, vaccines and marketing.

Course Outcomes

K1 – K5	CO1	Remember the knowledge about the importance of poultry farming
	CO2	Understand the types of poultry breeding
	CO3	Apply the knowledge in types of incubators for poultry breeding
	CO4	Analyse the importance of poultry marketing
	CO5	Evaluate the students to organize poultry farming and training in the rural area

Programme code: 06	B.Sc. Zoology		
21UZO5E1	Major Elective Paper 3 – Economic Zoology		
Batch 2021-2022	Hours / Week 4	Total Hours 60	Credits 3

Course Objectives

1. To get knowledge about sustainable agriculture, organic farming and waste management by using Vermitechnology.
2. To understand the rearing and harvesting techniques in sericulture, apiculture and lac culture.
3. To inculcate knowledge on Aquaculture, Poultry and Animal husbandry aspects.

Course Outcomes (COs)

K1 – K5	CO1	Outline the characteristics and role of earthworms in sustainable agriculture.
	CO2	Describe the examples about the problems in sericulture, apiculture and lac culture.
	CO3	Apply the knowledge on disease management in the field of poultry and animal husbandry.
	CO4	Analyze the economic importance of Apiculture, Lac culture, Poultry and aquaculture.
	CO5	Illustrate the marketing strategies of animal by products and create the self opportunities to students.

Programme code - 06	B.Sc. Zoology		
	Major Elective 4- Pests and Their management		
Batch 2021-2022	Hour/Week 3	Total hours 45	Credit 3

Course Objectives

1. To acquire information on insect pests and non- insect pests in agricultural crops
2. To get knowledge on biology and nature of damage caused by insect pests and non-insect pests in various crops
3. To understand the impact of insect vector on human and their control measures

Course Outcomes

K1 - K5	CO1	Get knowledge about the importance of insect pests of agricultural crops and plant diseases transmitted by insect pests.
	CO2	Understand the biology and nature of damage caused by insect pests and non-insect pests in various crops
	CO3	Apply the knowledge to study the impact of damage caused by the of stored grains
	CO4	Analyse the effect of damage caused by pest on agricultural crops and diseases caused to human by insect pests
	CO5	Discuss the obtained knowledge on impact of pest on agricultural crop and measures for its control

Programme Code - 06	B.Sc. Zoology		
	Major Elective 5- Vermitechnology		
Batch 2021-2022	Hour/Week 3	Total hours 45	Credit 3

Course Objectives

1. To aware the significance of sustainable agriculture and organic farming.
2. To inoculate basic knowledge on recycling of biodegradable waste of different kinds.
3. 2. To understand the value of Vermitechnology and its significance.

Course Outcomes

K1 – K5	CO1	Remember the knowledge on the significance of earthworms.
	CO2	Understand the importance of waste degradation by eco-friendly method.
	CO3	Apply the significance of Vermicomposting methods.
	CO4	Analyse the knowledge on commercialization of Vermiproducts.
	CO5	Evaluate the students to learn application of vermicomposting in Agriculture Field

4.

Programme Code: 06	B.Sc., Zoology		
	Major Elective Paper 6 -- Human Genetics and Counseling		
Batch	Hour/Week	Total hours	Credit
2021-2022	3	45	3

Course Objectives

1. To understand knowledge on the blood types, transfusion and diseases.
2. To know about the applications of aminocentesis, dermatoglyphics and Population genetics.
3. To learn the applications of Genetic engineering and Genetic counseling

Course Outcomes

K1 – K5	CO1	Remember the Physiology and genetics of blood groups.
	CO2	Understand the various syndromes and Population genetics.
	CO3	Apply the application of genetic engineering in man.
	CO4	Analyse the genetic counselling and pedigree chart.
	CO5	Evaluate the students to learn about genetic engineering and applications in cancer and AIDS

Programme Code : 06	B.Sc, Zoology			
Course code 21UZO6S4	Skill Based Subject 3 Commercial Fish Culture			
Batch	Semester	Hour/Week	Total hours	Credit
2021-2022	VI	2	30	3

Course Objectives

1. To develop knowledge in characteristics, structure and resources of fisheries.
2. To increase the fishery sector performance by production, culture practices and farm management.
3. To improve the trade and its contribution to the nation economy.

Course Outcomes

K1 - K5	CO1	Remember the knowledge about the commercial production of fishes in India
	CO2	Understand the practices of fish culture and its management to produce quality fish for human consumption
	CO3	Apply practical knowledge into fish production and marketing to become successful entrepreneur
	CO4	Analyze students acquired technical knowledge which is helpful to begin an entrepreneurship in the field of Fisheries
	CO5	Evaluate the student's fish processing and export.

Programme Code : 04	B.Sc Chemistry		
Course Code: 21UHR3N1	PART IV -NON MAJOR ELECTIVE –I HUMAN RIGHTS		
Batch	Hours / Week	Total Hours	Credits
2021-2024	2	30	2

Course Objectives

1. To prepare for responsible citizenship with awareness of the relationship between Human Rights, democracy and development.
2. To impart education on national and international regime on Human Rights.
3. To sensitive students to human suffering and promotion of human life with dignity.
- 4 .To develop skills on human rights advocacy
- 5.To appreciate the relationship between rights and duties
6. To foster respect for tolerance and compassion for all living creature.

Course Outcomes (CO)

K1 – K5	CO1	To understand the hidden truth of Human Rights by studying various theories.
	CO2	To acquire overall knowledge regarding Human Rights given by United Nation Commission. (UNO)
	CO3	To gain knowledge about various organs responsible for Human Rights such as National Human Rights Commission and state Human Right commission (UNHCR)
	CO4	To get habits of how to treat aged person, others and positive social responsibilities
	CO5	To treat and confirm, child, refugees and minorities with positive social justice.

Programme Code:				
Course Code: 21UWR4N2		Part IV -Non- Major Elective – II Women’s Rights		
Batch	Semester	Hours / Week	Total Hours	Credits
2021-2022	IV	2	30	2

Course Objectives

1. To know about the laws enacted to protect Women against violence.
2. To impart awareness about the hurdles faced by Women.
3. To develop a knowledge about the status of all forms of Women to access to justice.
4. To create awareness about Women’s rights.
5. To know about laws and norms pertaining to protection of Women.
6. To understand the articles which enables the Women’s rights.
7. To understand the Special Women Welfare laws.
8. To realize how the violence against Women puts an undue burden on healthcare services.

Course Outcomes (CO)

After Completion of the Course the student will be able to

K1-K5	CO1	Appraise the importance of Women’s Studies and incorporate Women’s Studies with other fields.
	CO2	Analyze the realities of Women Empowerment, Portrayal of Women in Media, Development and Communication.
	CO3	Interpret the laws pertaining to violence against Women and legal consequences.
	CO4	Contribute to the study of the important elements in the Indian Constitution, Indian Laws for Protection of Women.
	CO5	Spell out and implement Government Developmental schemes for women and create awareness on modernization and impact of technology on Women.

Programme Code :		B.Sc -----	
Non- Major Elective – Consumer Affairs			
Batch	Hours/Week	Total Hours	Credits
2021-2022	2	30	2

Course Objectives:

1. To familiarize the students with their rights and responsibilities as a consumer.
2. To understand the procedure of redress of consumer complaints.
3. To know more about decisions on Leading Cases by Consumer Protection Act.
4. To get more knowledge about Organizational set-up under the Consumer Protection Act
5. To impart awareness about the Role of Industry Regulators in Consumer Protection
6. To understand Contemporary Issues in Consumer Affairs

Course Outcomes (CO)

K1 to K5	CO1	Able to know the rights and responsibility of consumers.
	CO2	Understand the importance and benefits of Consumer Protection Act.
	CO3	Applying the role of different agencies in establishing product and service Standards.
	CO4	Analyse to handle the business firms' interface with consumers.
	CO5	Assess Quality and Standardization of consumer affairs

Programme code - 06	For All UG Programmes			
Course code - 21UZO5X1	Human Anatomy (EDC)			
Batch	Semester	Hour/week	Total hours	Credits
2021-2022	5	2	30	3

Course objectives:

1. To make the students to learn about the human body from cellular to system level.
2. To set a strong base in the biology related courses for other major students.
3. To motivate the students to pursue healthcare / bio-inspired courses related higher studies and research.

Course outcomes (CO)

K1 to K5	CO1	Remember the different organ system of the human body.
	CO2	Understand the anatomical position and structure of different organ system in human.
	CO3	Apply the knowledge gained on anatomy and function of human organ system in the healthcare.
	CO 4	Analyze the role of each organ system for the normal healthy life.
	CO 5	Evaluate the physiological function and mechanisms of the organs of all the systems.

Programme Code : 06	For B.Sc., Botany, Chemistry and Biochemistry			
Course Code 21UZO1A1	Allied A Paper I Invertebrata and Chordata			
Batch	Semester	Hour/Week	Total hours	Credit
2021-2022	1	5	75	4

Course Objectives

1. To learn about the taxonomy and characteristics of non-chordate
2. To obtain the knowledge of morphology and anatomy of the animals
3. To understand the biological significance of non-chordates and chordates

Course Outcomes

K1 - K5	CO1	Get knowledge about the classification of various organisms
	CO2	Study and understand the various parasites and protozoan diseases
	CO3	Apply the knowledge on the developmental stages of different animals.
	CO4	Analyze the morphology and anatomy on chordates.
	CO5	Evaluate the students to learn Migration of birds and parental care.

Programme code:06	For B.Sc., Botany, Chemistry and Biochemistry			
Course code: 21UZO2A2	Allied A Paper 2 Cell biology, Genetics, Embryology, Physiology, Ecology and Evolution			
Batch	Semester	Hour/Week	Total hours	Credit
2021-2022	II	5	75	2

Course Objectives

1. To acquire the knowledge about the cytology and developmental biology of living animals
2. To understand the physiology and of digestion
3. To create the awareness about the environmental pollution and learn about evolutionary modification.

Course Outcomes

K1 - K5	CO1	Acquire the knowledge about the cell organelles and its functions and Genetic disorders.
	CO2	Understand the embryology of frog
	CO3	Analyze the nutritive components of food and the process of digestion and absorption.
	CO4	Apply the comprehension in the field of eco-system and conservation
	CO5	Evaluate the knowledge on the evolutionary significance of animals

Programme code- 06	For B. Sc Botany, Chemistry and Biochemistry			
Course code 21UZO2AL	Allied –A- Practical I Zoology			
Batch 2021-2022	Semester I & II	Hour/Week 2	Total hours 60	Credit 2

Course Objectives

1. To observe the various anatomical systems of animals using virtual laboratory
2. To educate the students about cell division and genetic disorders.
3. To know the developmental stages of frog and identification, observation of planktons.

Course Outcomes

K2 - K5	CO1	Get the knowledge of the parts of various systems of frog, cockroach, Pila and starfish.
	CO2	Understand the structure of few non-chordate and chordate and cells of different tissues.
	CO3	Apply knowledge to differentiate the stages of mitosis and clinical features, chromosomal abnormalities of a few genetic syndromes.
	CO4	Analyze the various stages of gametes development and morphogenetic movements of cells in developing embryo.
	CO5	Evaluate the biological significance of planktons in ecosystem service and observation of their structure.
