Student Satisfactory Survey (SSS)
Assessment Year 2022-2023

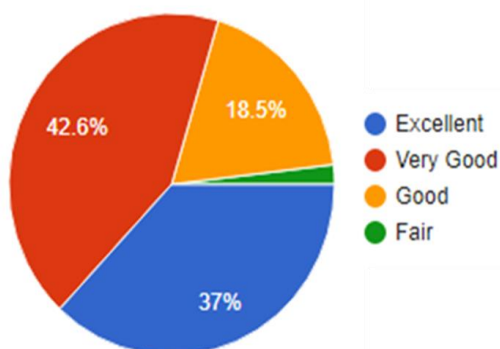

Introduction

Student Satisfactory Survey (SSS) was developed by Internal Quality Assessment Cell (IQAC) and it was taken up by the Final year students by Google form. (Link : <https://forms.gle/Rdkw4iwpXwuycf7p7>). The survey explored five main domains such as Curriculum, Teaching & Learning, Infrastructure, Skill development and other support means. This report summarizes the findings in a graphical way. The purpose of the survey is to compile opinions about the amenities that stockholders experienced while participating in the program.

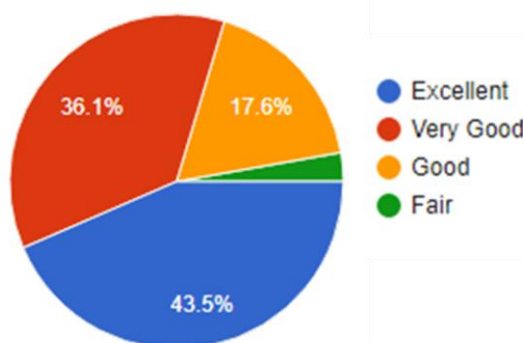

Curriculum

The syllabus's strength and curriculum content are both very good and flexible. In the class, there is an exceptional 37% coverage of the syllabus, and an excellent 42.6% coverage. The evaluation system's fairness rating is roughly 79.6%. Every response sheet is being independently verified. According to 55.6% of students, teachers and students routinely discuss the tasks in class. With 66.7% of votes, the institution encourages students to take part in field trips, internships, and student exchanges.

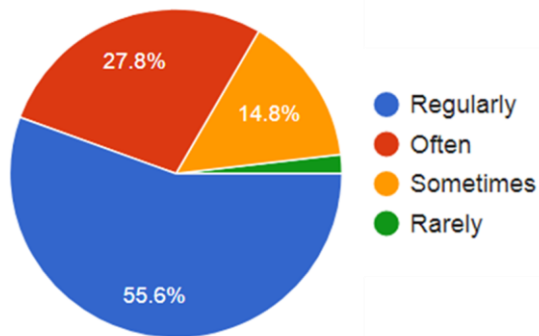

Coverage of the Syllabus

Discussion in Classroom

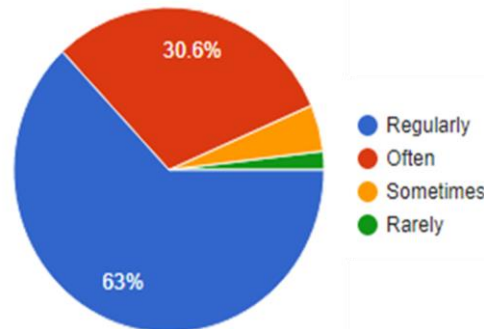

Participation in Internship

Improving Social & Emotional growth

Mentor-Mentee follow-up progress

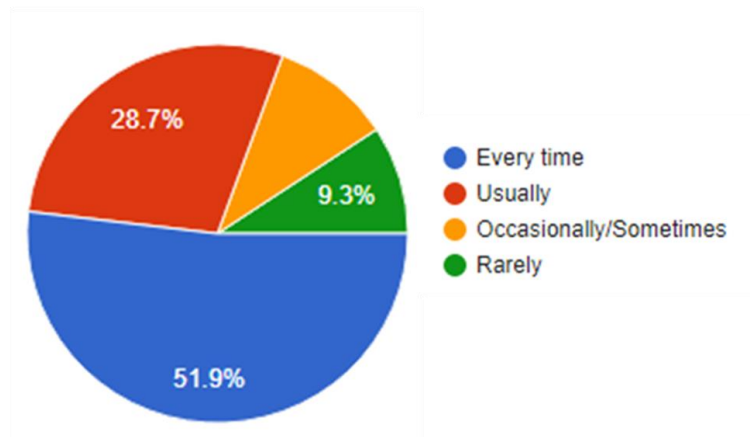

The institution does a very good job of facilitating the teaching and mentoring process to improve your social and emotional growth roughly - 73.1%. When new schemes are employed for the teaching and learning process, the teacher clearly teaches the desired competencies, course results, and program outcome.

Every mentor followed the students' development on a regular or sporadic basis, and the results were excellent - 93.6%. About 40.7% of the students expressed satisfaction with the ways that problem-solving, experimental learning, student-centric methods, and participatory learning improved their learning experiences.

Co-curricular and Extra-curricular activities

Eighty-one percent (80.6%) of students said they are very happy with the way the college encourages them to get involved in extracurricular and co-curricular activities.

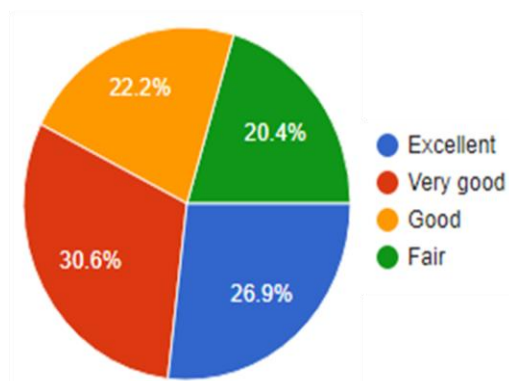

Opportunity to participate in Co-Curricular and Extracurricular activities

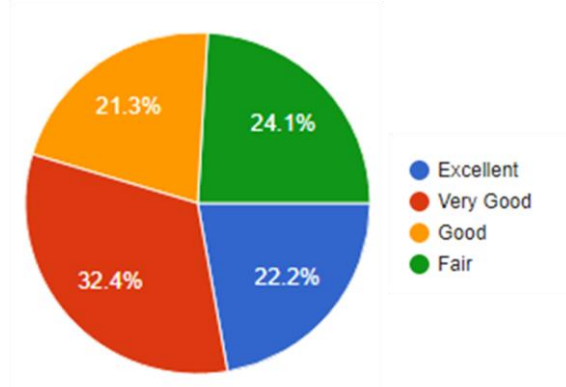

Placement Cell

57.5% of students said that the placement cell's help with the placement drive was so good, and 54.6% of students appreciated the efforts made to instill employability and soft skills in them to make them industry ready.

Conclusion

The Student Satisfactory Survey findings offer insightful commentary from our graduating students. This poll also evaluated the degree to which students met their learning objectives, their happiness with the program and services, and their overall experience generally. This study examined the survey results and offers insightful data that may be utilized to increase the college's operational efficacy. The findings indicate that there is room for growth in terms of students' attainment of the targeted learning goals, which include entrepreneurship, job readiness, and social awareness.
