

KONGUNADU ARTS AND SCIENCE COLLEGE (AUTONOMOUS)

DEPARTMENT OF BCOM B&I

ICT Enabled Teaching Methods

The Library of our college has provided various state of the art infrastructure facilities to enable ICT enabled teaching for the staff. The library has Audio Visual Room in which the classes can be taken for the students using online information, Power point presentations Etc. The classrooms are also equipped with smart Board where the staff can teach the students with Power point presentations and relevant pictures and videos. The lecture capturing system also help the students to gain knowledge in a very different environment which induce their interest and enthusiasm.

The staff also uses Google Classroom for giving assignments to the students. The Google classroom is created by the staff for each subject and code is given for the students to join the class. Various assignments topics are assigned for the students with due date and marks are allotted based on the uploaded subject content. The required subject material is also uploaded by the concern subject teacher and students download it for their reference. This digital method of collecting assignments helps staff and students to save time and complete their tasks on time.

The next method used for effective teaching by the staff is online Lesson plan where the subject wise topics are uploaded online with individual hours. This enable the staff to complete the topics within the allotted hours and completed lesson plan is saved and downloaded for future reference.
