

**DEPARTMENT OF WILDLIFE BIOLOGY**  
**PROGRAMME SPECIFIC OUTCOMES (PSO) OF M.Sc. WILDLIFE BIOLOGY**

For the students admitted in the Academic Year 2024-2025

**Program Specific Outcomes (PSO)**

*After the successful completion of Wildlife Biology program, the students are expected to*

- |             |  |
|-------------|--|
| <b>PSO1</b> | Elucidate animal-animal, animal-plant, animal-microbe interactions and their consequences to animals, humans and the environment.  |
| <b>PSO2</b> | Develop deeper understanding of key concepts of biology at molecular and cellular level, physiology and reproduction at organism level, and ecological impact on animal behaviour. |
| <b>PSO3</b> | Learn about managing wildlife, the identification of deceased animal and their organs, cause of death and human-wildlife conflicts.  |
| <b>PSO4</b> | Develop an understanding of classification and taxonomy of wildlife, as well as about their habits, habitats and conservation.   |
| <b>PSO5</b> | Focus to prepare the students with research-oriented approach in frontier area of Wildlife Biology to carrying out advanced research.  |
